ABOUT

ZERTEO JEWELLERY is founded in 2006, in Athens – Greece, by Teo Karavanis. The idea behind ZERTEO Jewelry was to penetrate the modern jewelry segment of the jewelry market and attract a wide range of people, mainly the fashionable, trendy and sophisticated women who appreciate the luxurious and bespoke pieces. ZERTEO is constantly inspired and never stop to fascinate with new collections. We use gold, embellished by diamonds, rubies, emeralds, sapphires as well as many semi precious stones in unique combinations and designs.

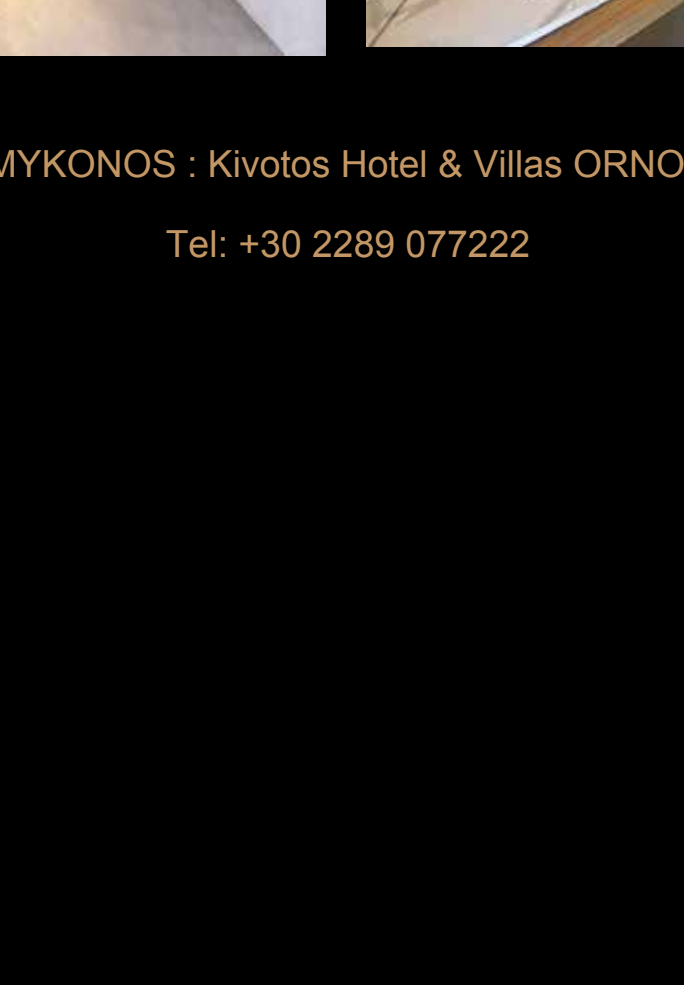

State of the art of the evil eye designs, which have become "must wear" items by all classy and trendy people of Athens, ZERTEO JEWELRY is also specialized in luxurious house objects, always based on the evil eye designs.

Following ZERTEO Jewellery's success in Athens, Zerteo expanded to the famous cosmopolitan island of Mykonos. It is a step to achieve their vision towards expanding the business internationally and attract the sophisticated citizens of the world.
